PHY 183: Physics for Scientists and Engineers I

Spring 2027

Lecture: MWF 11:30 AM - 12:20 PM, 1415 Biomedical & Physical Sciences. **Lab:** Thursdays 3:00 - 4:50 PM, room 1248 BPS (labs start the second week). **Instructor:** Prof. Hana Okafor. No classes March 8 - 12 (spring break).

Assessments

Midterm 1 is in lecture on Monday, February 22. Midterm 2 is in lecture on Monday, April 5. The lab practical is during your lab section on Thursday, April 22. The final exam is Thursday, May 6, 3:00 - 5:00 PM (room TBA).

Problem sets

Problem set	Due (start of lecture, 11:30 AM)	Covers
PS 1	Wednesday, January 20	Ch. 1-2 kinematics
PS 2	Wednesday, February 3	Ch. 3-4 vectors, projectiles
PS 3	Wednesday, February 17	Ch. 5 Newton's laws
PS 4	Wednesday, March 3	Ch. 6-7 work, energy
PS 5	Wednesday, March 24	Ch. 8-9 momentum
PS 6	Wednesday, April 7	Ch. 10-11 rotation
PS 7	Wednesday, April 21	Ch. 12-13 gravity, oscillations

Attendance

Attendance is expected at every class meeting. If you must miss class for an illness or a university-sanctioned activity, email the instructor before class when possible. Repeated absences will make it difficult to succeed in this course, because much of the material is introduced only in class.

Academic integrity

Article 2.III.B.2 of the Student Rights and Responsibilities states that the student shares with the faculty the responsibility for maintaining the integrity of scholarship, grades, and professional standards. You may discuss ideas with classmates, but the work you submit must be your own. Using AI tools to write answers you submit is not allowed unless an assignment says otherwise.

Late work

Late work is accepted up to 48 hours after the deadline with a 10% penalty per day. Work more than 48 hours late receives no credit unless an extension was arranged in advance. Technology problems are not an excuse, so submit early and keep copies of your files.
